## Education

---

**Sabanci University** – Istanbul, Turkey *Sept 2023 - Jun 2028*  
*BSc, Computer Science / BSc, Economics*  
*Minor, Finance*

- GPA: 3.99/4.0
- Half scholarship awarded for academic excellence.
- Erasmus Exchange Semester at Wageningen University & Research, Spring 2026.

**Izmir Private Turkish College High School, Marmaris Campus** – Muğla, Turkey *Sept 2018 - Jun 2022*

- School Band – Trumpet: Performed in multiple school ceremonies and public events

## Experience

---

**Incoming Software Engineering Intern** *Wageningen University*  
*Decision Model for ML Model Selection (Hugging Face Ecosystem)* *Summer 2026 (Planned)*  
*User Interface Development*

- Designing and developing the user interface for a decision-support system for machine learning model selection.
- Contributing to a system that evaluates models based on criteria such as accuracy, latency, and hardware constraints.
- Building intuitive UI components to support model comparison and decision-making workflows.

## Projects

---

**Personalized 3D-Printed Shoe Insoles** *Sabanci University*  
*Rhino3D, Grasshopper, LIDAR, 3D Printing* *Spring 2025*

- Designed personalized shoe insoles using LIDAR-based foot scanning and parametric modeling.
- Developed 3D models in Rhino3D and Grasshopper, optimizing pressure distribution with lattice structures.
- Improved comfort and biomechanical support compared to traditional insoles.

**SmartCalendar – Collaborative Scheduling Application** *Wageningen University -*  
*Java, GUI Development* *Ongoing*  
*2026*

- Built a multi-user scheduling system that identifies optimal meeting times by analyzing shared calendar data.
- Implemented event management features including invitations, notifications, and dynamic updates.
- Designed a scalable system with authentication, role-based access (admin/user), and calendar integration.

**Habit Tracker – iOS Application** *Ongoing*  
*SwiftUI, iOS Development* *2026*

- Developing a habit tracking application using SwiftUI for iOS.
- Implementing features for tracking daily habits, progress visualization, and user interaction.
- Designing intuitive and responsive user interfaces following modern UI/UX principles.

## Certifications

---

- CS50's Introduction to Programming with Python – Harvard University
- Financial Markets – Yale University (Coursera)

## Activities

---

### **Sabancı Seahawks Ultimate Frisbee Team Player**

*Sabancı University*

*Istanbul, Turkey*

*Sept 2024 - May 2025*

- Competed and trained as part of the university's Ultimate Frisbee team.
- Developed teamwork, strategic thinking, and physical endurance through regular practices.

### **Student Volunteer**

*Sabancı University Civic Involvement Projects*

*Istanbul, Turkey*

*Feb 2024 - Jun 2024*

- Delivered educational activities to primary school students on global and daily life topics.
- Designed engaging learning experiences through interactive activities and small projects.

### **Group Leader**

*UniMates*

*Istanbul, Turkey*

*Oct 2025 - Jan 2026*

- Led a student initiative to support incoming students' adaptation to university life.
- Organized social events and managed communication channels to build an inclusive community.

## Skills

---

**Languages:** Turkish (Native), English (C1), German (A2)

**Programming Languages:** Python, C++, Java, SQL

**Frameworks & Tools:** SwiftUI (iOS Development), 3D Printing, 3D Modeling, ArcGISPro

## Interests

---

- App Development
- User Interface Design
- Financial Markets
- Music (Guitar, Trumpet, Piano)
- Latin Dance (Salsa, Bachata)
